

Road changes due to light rail construction

Due to construction of the new light rail at Asmussens Allé there will be a change in the way to approach building 304 both by car and by foot. There will still be the existing parking for hosting clients, but they will be adjusted to face up to the wall instead of parallel to the wall as they were.

As shown on the map, the new road to access 304 will start at Fysikvej (yellow circle) and pass Matematiktorvet. The dark blue area on the map will be closed for both driving and pedestrian traffic, so it will not be possible to walk at Asmussens Allé to 304 from the big parking area with the trees.
